

These three mall soccer demo areas in Honduras were easily constructed directly on top of the polished mall floors utilizing the UltraBaseSystems™ field panels.

A pre fabricated aluminum cage system complete with full surround netting and signage is a crowd stopping attraction used to promote the NEFERSA Sports company's soccer program as well as provide in-mall fun for kids.

The multi color turf is non filled and stays put due to the patented UBS barb system.

From soccer to batting cages, bocce to golf this is an easy way to bring much needed fun to the malls, all the while giving moms and dads a nice break.
